VSS Issue 503 - SSEXp: Rename after a failed Destroy crashes			
<b>History</b>	<b>Title</b>	<b>Status</b>	
Issue 3 [KHardy]	SSEXp: Rename after a failed Destroy crashes	Working	
Issue 2 SteveKr	Assigned To: WinnieNg	Status: Dev Testing	
Issue 1 WinnieNg	Priority: 1	Sub Status:	
	Severity: 1		
	Product: VSS Beta 1	Details:	
	Workarea: VSS 98	Type: Code Defect	
	Product: Explorer	How Found: Test Script	
	Area: Rename	Fixed By: Beta 2	
	Feature:	Resolution: Went Fix	
	Results:		
Description:		Comments:	
1) In ssadmin, turn on Project Security and set one user to RCA 2) Login to ssexp as that user 3) In ssexp, attempt to destroy permanently file-you will be denied 4) Then attempt to re-name the file		<b>[WinnieNg 10/15/98 9:16am]</b> I think I know where the fix is...  <b>[SteveKr 10/15/98 8:37pm]</b> Make sure to check the other place too.  <b>[KHardy]</b>
